Component Selection to production support

We understand that every challenge is unique and that every part of your system must work together to maximize efficiency and value. That's why we work closely with our partners and you to truly understand problems and find ways that expand your ability to overcome them.

We supply both standard products and tailor made solutions, all backed by proven quality and reliability. We're continuously working to reduce your costs, time and energy with the goal of maximizing your competitiveness. We work closely with you to make your machines and production run faster, smoother and more productive, helping you to achieve your business aims.

We have extensive experience in electromechanical automation. We can support with sizing motion axis and understanding the best technology to achieve your goals. We offer a range of solutions from direct drive rotary and linear motors, rotary tables and servo motors with ballscrew and belt actuators

From single component to a bill of materials or a sub assembly we work closely with our partners and our clients to ensure that your requirements are met when you need them. If you are looking for a partner whose aim is to help your business and supply exceptional customer service then call CAPSS UK Ltd.

We supply and support an extensive range of AC Drives, from 0.2Kw to 315Kw. Single drives, Multi Drive solutions and IP rated drives for environmental protection. All drives feature STO Sil3, & Network connectivity to the leading automation Networks.

DIGITAL MANUFACTURING FOR SMEs

Digital Manufacturing offers huge potential to improve productivity, short lead times, reduce working capital and improve cash flow. It can also be used to reduce time-to-market for new products, allow mass customization of products, improve the customer experience and aftermarket service of your business.

However, many business owners and directors see this as an opportunity for large global corporations, But in reality the benefits of digitalization can greatly enhance the performance and the productivity of any business including Small Medium Sized Enterprises (SMEs)

Our Focus is to offer simple and cost effective solutions in the areas of digital Network, data acquisition and turning big data in useful data for business.

About CAPSS (UK) Ltd

We are a specialist stockist and distributor of electrical and mechanical components for automation and control of plant and machinery. Our staff have a wealth of experience in the field of industrial automation and control, enabling us to provide exceptional service, technical application assistance and product advice. We serve customers throughout the UK from our central location in Coventry.

Exceptional service

Our objective is to provide a first class, prompt and reliable service from a wide and varied stockholding - real stocks held on our shelves ready for dispatch to you. We offer a professional and friendly approach, and as an independent Distributor are easy to deal with - making your life simple when doing business with us.

Quality products

At CAPSS we specialize in machine and process control components. This means all electrical elements of the industrial control process, including motor control and circuit protection, PLCs, displays and communication networks, sensors, power conversion and machine safety, together with the enclosures and wiring accessories to put it all together. With more than 50 years of industry experience we are proud to offer our customers a wide variety of products from world leading manufacturers.

Technical advice - our speciality

At CAPSS we have a wealth of technical experience covering all aspects of control and electrical engineering, from simple switching to automation systems, networking, motor control, safety applications and software. We really know the products and how to apply them, it's where we stand out from the crowd.

Obsolete parts service

If you are struggling to find a product or an alternative for an out of date item give us a call. We also offer an old and obsolete parts service - including repairs and reference updates.

Fast deliveries

If you need something urgently, we can deliver. We offer a range of options on delivery to suit your needs - next day, timed deliveries or even same day courier. We understand the urgency and costs involved in a breakdown, so you can be sure of a fast and reliable service.

If you are looking for a single source supplier who can offer you more, why not call us today on 02476 444664 or e-mail sales@capss.co.uk
